**“A Bill to Fund the Implementation of Printers in Residence Halls”**

Whereas: Last fall, SGA conducted an “Improve TCU” survey distributed to the entire student body and received feedback to improve our university

Whereas: 996 students of 1,394 student responses indicated TCU residence halls could improve by more media capabilities including printers

Whereas: Implementing printers in residence halls would not only be a safer alternative than going to the BLUU or library at late hours but would also be convenient for those residents and improve their TCU experience

Whereas: The TCU Housing and Residential Life and the TCU Information Technology department have agreed to split costs for the implementation into Moncrief and Waits Residence Halls with SGA and have received approval for implementation from TCU Physical Plant

Let it be enacted by the House of Student Representatives at Texas Christian University:

(1) That the House of Student Representatives will supply \$4,000 for the implementation of printers in Moncrief and Waits Hall.

(2) All unused funds will be returned to the House of Student Representatives.
